

**BHATE & RAJE CONSTRUCTION CO PVT LTD****ENERGY MANAGEMENT & EFFICIENCY POLICY**

Bhate & Raje Construction Company Pvt.Ltd is willingly committed for Energy Efficiency as under. We recognize the importance of saving energy and its impact on the economy of our company and country. We must adopt an approach that is focused on the efficient use of energy resources, as we all are responsible to fulfill our commitment by increasing energy efficiency, commence and complete actions related to energy savings by starting from important points of consumption.

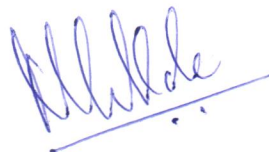

In order to ensure that energy resources are used properly and to improve energy performance,

**WE PROMISE**

- To comply to the current energy regulation and to fulfill our legal obligations.
- To regularly review and to continuously improve our energy performance.
- To create an infrastructure to follow up the energy performance criteria and targets.
- To provide all information and resources to reach our energy performance targets.
- To keep our energy consumption in line with our work and production capacities.
- To use products and services that have a high energy efficiency during the entire production and sales process, starting from design.

We have been using energy light fitting LED bulbs & tubes at Construction site & Offices. We have planned to use solar energy panels at head offices to reduce the electricity consumption. Site premises are temporary & owned by the client as such solar panel are not used at site. We are regularly practicing switching off electrical power when not in use.

This Policy is considered as a continual improvement opportunity for all of us and and very supportive for organizational growth. Every one of us in BRCCPL is willingly committed for sustainable growth of our construction operations.
